

Linaro Benefits with Blue Jeans Versatility and Reliability

"It was an absolute joy to work with Blue Jeans. I've become a power user, converting many of my previous conversations over audio or other video services to Blue Jeans meetings. Similar to having an open door to an office—if someone wants to have a quick chat, they can do so from anywhere."

— Mike Levine, Director of Global Talent

About Linaro

Linaro is building the future of Linux on ARM processors through a unique collaboration between its own engineering team and engineers from the world's leading technology companies.

With a combined engineering organization of over 200 engineers Linaro is delivering great tools, reducing industry wide fragmentation, and providing common software foundations for all.

Why Blue Jeans

Blue Jeans provided Linaro inherent value with a number of its key features. Linaro has seen more reliable service in locations around the globe compared to other video services, providing genuine global accessibility and allowing Linaro to connect users across both office locations and home offices in 27 countries. The ability to hold meetings with up to 100 people is a key benefit.

Linaro are now realizing the benefits of global face-to-face communication, via a professional and seamless experience, with branded user interface, in everything from internal training to partner interactions and job candidate interviews.

About Blue Jeans

At Blue Jeans Network, our mission is to make video communications as easy and pervasive as audio communications, enabling more effective collaboration at work, at home, and on the road. Our cloud-based conferencing service makes this possible by enabling customers to connect with each other seamlessly anytime, anywhere, and from practically any device.
